

ACID ETCHED

Available in 1/8, 1/4 and 3/8

Acid-etched glass products offer a wealth of opportunities to architects, interior designers and decorators. Acid Etched glass creates a translucent satin appearance which obscures view while maintaining a high level of light transmittance.

AQUATEX

Aquatex offers both obscurity and light diffusion, allowing architects and designers to achieve their unique aesthetic vision. A temperable solution, Aquatex also offers outstanding strength. This beautiful, durable solution can be used to create translucent works of art for a variety of applications.

ANTIQUE MIRROR

Called Leopard

Antique Revival: A new solution for a creative classic. Antique mirror is new again and better than ever before. The consistent, subtle pattern of Antique Mirror never feels obtrusive. Antique Mirror is perfect for use as interior walls, tabletops, furniture inserts and other interior uses for a classic feel in any environment.

BAMBOO

Looking to add an elegant touch of the Far East to your home? This etched-glass, bamboo-motif glass may be just the thing you need to make your bathroom and other parts of your home feel like an stylish Asian retreat.

BLACK PAINTED **GLASS/SPANDREL**

Black Painted glass or Spandrel offers a distinct opaque finish on glass. Painted on one surface and highly obscure, black painted glass expands the possibilities for decorative glass. Easy to clean, durable. Black painted is both aesthetically pleasing and highly practical. This particular glass unlike true Spandrel is a solid painted surface with no pinholes. BEAUTIFUL WHEN BEVELED

COTSWALD

Very close to a Rain Glass Pattern, Cotswold offers A refreshing patterned glass option, This Glass brings natural beauty indoors— offering obscurity, light diffusion, and a rippled pattern reminiscent of a summer shower.

DELTA FROST

An ideal glass when total privacy is important. It can be easily cut and tempered. The background is frosted and the design raised and more clear. Uses include entryways, cabinet door inserts and accents in leaded glass panels.

EVERGLADES

One of our newest products. A whimsical pattern of swirls makes this glass almost musical. It offers mild figure distortion without appreciably diminishing light transmittance. This pattern would make an elegant and classic statement in applications that allow for the thinner glass patterns.

GERMAN ANTIQUE

***As the name implies,
the subtle striations on
the surface of this glass
simulate the look of
mouth blown antique
glass***

GLACIER **GLASS/** **FLEMISH**

A groundbreaking patterned product, Glacier Glass combines subtle obscurity and exceptional clarity—with a unique “fire-polished” look that complements many design visions. Glacier is a revolutionary patterned solution that features a distinctive “ice-like” appearance reminiscent of expensive cast-glass products. Practical and beautiful, Glacier offers both subtle obscurity and exceptional glass clarity.

KRYSTAL PEBBLES

Krystal Pebbles,

Our newest offering, ultra-transparent patterned glass for windows, doors, cabinet glass, partitions, and so much more...

MONUMENTAL

One of our newest products. Monumental can be classified as obscure.

PATTERN 62

available in 1/8 and 3/16

Pattern 62 is a longtime favorite of commercial, residential, and specialty glass customers—available in a range of thicknesses, and suitable for both tempering and laminating.

RAIN GLASS

Available in 3/16 and 3/8

A refreshing patterned glass option, Rain Glass brings natural beauty indoors—offering obscurity, light diffusion, and a rippled pattern reminiscent of a summer shower. With a rippled effect that recalls a summer rain shower, this stylish solution brings a touch of the outdoors inside—with its combination of natural harmony and kinetic beauty.

REEDED **GLASS**

Slightly different than Krystal Flutex in clarity and thickness, but a more economical choice over Krystal. As attractive as Krystal and like Krystal can be used for interior partitions, door treatments or decorative furniture. Reeded can be tempered and possesses extreme strength and durability

SEEDY

Small, elongated bubbles evoke the character of antique glass.

***CANNOT BE TEMPERED,
But can be triple
insulated
As in IG.***

TAFFETA

One of our newest products. Taffeta can be classified as obscure. The swirling patterns in the glass give it Victorian look. Made to resemble the texture of the taffeta fabric, this pattern brings whimsy to many possible applications

WINTERCREEK

This window glass is nearly clear with ice-like distortion of the image viewed through it.

Though still clear, Winterlake offers the obscurity desired in applications like decorative windows glass and partitions
